

THE PERFECT BASS & THE PERFECT GUITAR LESSON PROGRAM

The Perfect Bass and The Perfect Guitar are proud to offer a lesson program designed to help both new and continuing students benefit from the joys of music! We have carefully selected instructors with the knowledge and skills to properly teach the discipline, theory and vocabulary that result in a lifetime of music appreciation and enjoyment. The Perfect Bass and The Perfect Guitar believe that everyone has the capabilities to play and enjoy making music and we are excited to help you begin your journey.

Our lessons are 45 minutes in length. Students should arrive with enough time to be ready to learn the minute they walk through the instructor's door. Students will be given homework to work on throughout the week. Working daily toward their musical goal helps students build the discipline required to enjoy playing music. Most importantly, music making is fun! Our teachers work hard to make sure your lesson program is enjoyable and fun!

Tuition is paid before the first lesson of every month. Tuition is \$140 dollars a month. Occasionally, when five lessons a month are given, tuition will be adjusted to \$175.00. Please remember to pay tuition before the first lesson of each month. Teachers are instructed to only give lessons with verification of payment.

The Perfect Bass and The Perfect Guitar work closely with many professional musicians and teachers in the area. We are also proud members of the National Association of Music Merchants and our CEO has served on the NAMM President's council. We attend multiple conferences every year to make sure we are up to date and ready to help you or your child with their musical journey.
